

Who We Are

Groups is a leading outpatient opioid use disorder treatment provider. We're dedicated to making holistic treatment affordable, convenient, and accessible. Our hybrid in-person and virtual approach means members can access treatment when and how they need it — regardless of who they are, where they live, or how they receive care.

Our Treatment Approach

We understand that recovery is more than just not using drugs. Our unique and effective care model addresses the whole person — including the emotional, physical, and social conditions that can sometimes get in the way of meeting goals.

Evidence-Based Medicine
Groups' medical providers prescribe Suboxone as part of gold-standard medication-assisted treatment for opioid use disorder.

Group Therapy
Groups members attend weekly one-hour group therapy sessions with experienced recovery counselors in-person or through our app.

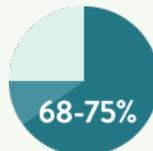

Whole-Person Care
Groups members are supported in all areas of their lives by a compassionate care team, a 24/7 crisis line, and a local community with lived experience.

Our Impact

Since launching in 2014, Groups has helped 50,000 members across 18 states meet their recovery goals. *Illinois, Georgia, Iowa, and Ohio coming soon

Groups' retention rates at six months (68-75%) are 2-3x the national average.

Groups' Recovery Support Specialists have helped 4,500+ members access healthcare, housing, employment, education, social support, and other non-medical factors that can help improve their lives.

Groups has partnered with 250+ health insurance providers, including Medicaid, Medicare, and commercial health plans.

Groups is accredited with the National Commission on Accreditation of Rehabilitation.

“Groups was one of the best things I’ve done for myself, and it’s really turned around my whole life honestly.”

Ben, Groups Member

“Coming to Groups gave me, ME back. It gave me a reason to want to wake up in the morning.”

Megan, Groups Member

“What makes Groups special is the support, not only from our clinical management, but also other peers”

Francesca, Groups Counselor
